Article 4.

Budget Requirements.

§ 143C-4-1. Annual balanced budget.

The budget recommended by the Governor and the budget enacted by the General Assembly shall be balanced and shall include two fiscal years beginning on July 1 of each odd-numbered year. Each fiscal year and each fund shall be balanced separately. The budget for a fund is balanced when the beginning unreserved fund balance for the fiscal year, together with the projected receipts to the fund during the fiscal year, is equal to or greater than the sum of appropriations from the fund for that fiscal year. (2006-203, s. 3.)

§ 143C-4-2. Savings Reserve.

(a) Creation. – The Savings Reserve is established as a reserve in the General Fund and is a component of the unappropriated General Fund balance.

(b) General Use of Funds. – In each fiscal year, funds reserved to the Savings Reserve shall be available for expenditure in an aggregate amount that does not exceed seven and one-half percent (7.5%) of the prior fiscal year's General Fund operating budget appropriations, excluding departmental receipts, upon appropriation by a majority vote of the membership of the Senate and House of Representatives present and voting for any of the following purposes:

- (1) To cover a decline in General Fund revenue from one fiscal year to another.

- (2) To cover the difference between that fiscal year's General Fund operating budget appropriations, excluding departmental receipts, and projected revenue.
- (3) To pay costs imposed by a court or administrative order.
- (4) To provide relief and assistance from the effects of an emergency, as that term is defined in G.S. 166A-19.3.

(b1) Extraordinary Use of Funds. – In each fiscal year, funds reserved to the Savings Reserve shall be available for expenditure upon a two-thirds vote of the membership of the Senate and House of Representatives present and voting for any of the following purposes:

- (1) To use for any of the purposes set forth in subdivisions (1) through (4) of subsection (b) of this section in an aggregate amount that exceeds seven and one-half percent (7.5%) of the prior fiscal year's General Fund operating budget appropriations, excluding departmental receipts.
- (2) For a purpose not set forth in subdivisions (1) through (4) of subsection (b) of this section in any amount.

(c) Repealed by Session Laws 2017-5, s. 1, effective October 1, 2017.

(d) Savings Reserve Requirement. – Each Current Operations Appropriations Act enacted by the General Assembly shall include a transfer to the Savings Reserve of fifteen percent (15%) of each fiscal year's estimated growth in State tax revenues that are deposited in the General Fund, except that if that transfer would cause the balance of the Reserve to exceed the recommended Savings Reserve balance developed pursuant to subsection (f) of this section then the amount transferred pursuant to this subsection shall be reduced accordingly.

(e) Actual Transfer of Funds to Savings Reserve. – Each fiscal year, the Office of State Controller shall transfer to the Savings Reserve the estimated growth amount required by subsection (d) of this section. Upon calculation of the actual growth in State tax revenues that are deposited in the General Fund, the Office of State Controller shall adjust the amount of the transfer to the Savings Reserve to achieve an amount equivalent to fifteen percent (15%) of the actual growth.

(f) Evaluation of Savings Reserve. – The Office of State Budget and Management and the Fiscal Research Division of the General Assembly shall jointly develop and annually produce an evaluation of the adequacy of the Savings Reserve based on the volatility of North Carolina's General Fund tax structure, which shall take into consideration relevant statistical and economic literature. After completing the evaluation, these entities may revise the methodology as needed to estimate the target for the Savings Reserve balance, which shall be calculated so as to be sufficient to cover two years of need for nine out of 10 scenarios involving a decline in General Fund revenue from one fiscal year to the next fiscal year. The recommended balance shall be expressed as a percentage of the prior year General Fund operating budget appropriations, excluding departmental receipts. The Office of State Budget and Management shall report this percentage to the Chairs of the House of Representatives and Senate Appropriations and Finance Committees no later than February 1 of each year.

(g) Additional Transfer of Funds by General Assembly Permissible. – Nothing in this section shall be construed to prohibit the General Assembly from directing the transfer of additional funds into the Savings Reserve.

(h) Applicability. – Nothing in this section shall be construed to apply to the Highway Fund or the Highway Trust Fund.

(i) Unfunded Liability Solvency Reserve Full-Growth Transfer Requirement. – If, and to the extent that, the balance of the Savings Reserve is at or above the recommended Savings

Reserve balance developed under subsection (f) of this section as of the last day of the fiscal year, the Current Operations Appropriations Act for the succeeding fiscal year shall include a transfer to the Unfunded Liability Solvency Reserve of fifteen percent (15%) of the succeeding fiscal year's estimated growth in State tax revenues that are deposited in the General Fund.

(j) Unfunded Liability Solvency Reserve Partial Growth Transfer Requirement. – If, and to the extent that, the balance of the Savings Reserve is below the recommended Savings Reserve balance developed under subsection (f) of this section as of the last day of the fiscal year, prior to the transfer of fifteen percent (15%) of the succeeding fiscal year's estimated growth in State tax revenues that are deposited in the General Fund, then the following shall apply:

- (1) If, upon transfer to the Savings Reserve funds in the amount of fifteen percent (15%) of estimated growth in State tax revenues deposited in the General Fund, the balance of the Savings Reserve is above the recommended Savings Reserve balance developed under subsection (f) of this section, then the Current Operations Appropriations Act shall include a transfer to the Unfunded Liability Solvency Reserve of an amount equal to the difference between the recommended balance of the Savings Reserve developed under subsection (f) of this section and the balance of the Savings Reserve upon transfer of fifteen percent (15%) of estimated growth in State tax revenues.
- (2) If, upon transfer to the Savings Reserve funds in the amount of fifteen percent (15%) of estimated growth in State tax revenues deposited in the General Fund, the balance of Savings Reserves is at or below the recommended Savings Reserve balance developed under subsection (f) of this section, then no such transfer described in subdivision (1) of this subsection shall occur. (2006-203, s. 3; 2017-5, s. 1; 2018-30, s. 2(c).)

§ 143C-4-3: Repealed by Session Laws 2017-57, s. 36.12, effective July 1, 2019.

§ 143C-4-3.1. State Capital and Infrastructure Fund.

(a) Legislative Intent. – The General Assembly recognizes the need to establish and maintain a sufficient funding source to address the ongoing capital and infrastructure needs of the State. The General Assembly further recognizes the need to protect the State's substantial improvements in existing public facilities while providing a stable funding source to pay for new facilities to meet the needs of a growing population.

(b) Creation and Source of Funds. – There is established in the General Fund the State Capital and Infrastructure Fund, hereinafter referred to as the "Fund." The Fund shall be maintained as a special fund and administered by the Office of State Budget and Management to carry out the provisions of this section. With the exception of debt service obligations, appropriations from the Fund may be administered by other State agencies as deemed necessary by the Office of State Budget and Management. Interest accruing from the monies in the Fund shall be credited to the Fund. The Fund shall consist of the following sources of funding:

- (d) Transfer of Funds to the Fund. – Each fiscal year, the Office of State Controller shall transfer to the Fund the estimated amounts required pursuant to subsection (c) of this section. Each fiscal year, the Office of State Controller shall transfer to the Fund one-fourth of the General Fund unreserved fund balance, as determined on a cash basis, at the end of the fiscal year.
- (e) Use of Funds. – Monies in the Fund shall first be used to meet the debt service obligations of the State. In addition to meeting the State's debt service obligations, monies in the Fund may be used for the following purposes:
 - (1) New State and The University of North Carolina capital projects governed pursuant to Article 8 of Chapter 143C of the General Statutes.
 - (2) Repair and renovation of existing capital assets, as provided in G.S. 143C-8-13.
- (f) Funds Available Only Upon Appropriation. – Funds reserved to the Fund shall be available for expenditure only upon an act of appropriation by the General Assembly. (2017-57, s. 36.12(b); 2018-5, s. 36.8(a).)

§ 143C-4-4. Contingency and Emergency Fund.

- (a) Creation. – The Contingency and Emergency Fund is established within the General Fund. The General Assembly shall appropriate a specific amount to this fund for contingencies and emergencies in the Current Operations Appropriations Act or other appropriations bill.

- (c) Request for Allocation. – A State agency may request an allocation from the Contingency and Emergency Fund by submitting a request in writing to the Director along with any information required by the Director. If the Director approves the request, the Director shall present the request, together with a recommendation, to the Council of State for its approval. If the Council of State approves the request, the Director shall order the Controller to allocate the funds requested. The Director shall report on the request at the next scheduled meeting of the Joint Legislative Commission on Governmental Operations. (2006-203, s. 3; 2012-12, s. 2(v).)

§ 143C-4-5. Non-State match restrictions.

Whenever money is required to match an appropriation made for a specific purpose by the State of North Carolina, the recipient of the appropriation shall actually receive as a gift, grant, earnings in actual money, or a pledge that can be used as collateral in any prudent loan transaction, the matching amount required. The recipient shall retain the matching amount received in its possession until spent for that purpose and shall spend an equal percentage of the appropriation and of the matching amount each time an expenditure is made, unless the individual appropriation requires otherwise. (2006-203, s. 3.)

§ 143C-4-6. General Fund operating budget size limited.

(a) Size Limitation. – Except as otherwise provided in this section, the General Fund operating budget each fiscal year shall not be greater than seven percent (7%) of the projected total State personal income for that fiscal year.

(b) Increase in Size Limitation. – To the extent that any percent increase in appropriations for a fiscal year for (i) Medicaid, (ii) operation of prisons, or (iii) operation of the courts or (iv) the costs of providing health insurance for teachers and State employees, exceeds the percent increase in State personal income growth for the same period, the limitation on the size of the General Fund operating budget provided in subsection (a) of this section for that fiscal year shall be increased by the dollar amount represented by the excess percentage. For all subsequent fiscal years, the percent limitation contained in subsection (a) shall then be increased to reflect that dollar adjustment.

(c) Fiscal Reports. – The Office of State Budget and Management and the Fiscal Research Division of the General Assembly shall each submit a tentative estimate of total State personal income for the upcoming fiscal year to the General Assembly no later than February 1 of each year. The Office and the Fiscal Research Division shall each submit a final projection of total State personal income for the upcoming fiscal year to the General Assembly no later than May 1 of each year. The General Assembly shall use the lower of the two final projections to calculate the limitation on the size of the General Fund operating budget provided in this section. (2006-203, s. 3; 2007-393, s. 5.)

§ 143C-4-7. Limit on number of permanent positions budgeted.

The total number of permanent budgeted positions established in State agencies shall not be increased by the end of any State fiscal year by a greater percentage rate of change than the percentage rate of change of the residential population growth for the State of North Carolina. The Office of State Budget and Management shall be responsible for computing the annual percentage rates of change for each measure. The population growth rate shall be computed by averaging the annual residential population growth rate in each of the preceding 10 fiscal years as stated in the annual estimates of residential population in North Carolina made by the United States Census Bureau. The growth rate of the number of budgeted positions shall be computed by averaging the annual rate of growth of State budgeted positions in each of the preceding 10 fiscal years. The total number of permanent budgeted positions established in State agencies shall be computed by adding the total number of budgeted Full-Time Equivalents from all fund types. This section does not apply to State-funded positions supported by the State in a local public school system or local community college institution. (2006-203, s. 3.)

(c) Request for Allocation. – After January 1 of each fiscal year, an agency may request an allocation from the Pay Plan Reserve by submitting:

- (1) A detailed description of the pay plan design, including the salary or salary range at each step within the pay plan and the criteria for movement between steps of the pay plan.
- (2) Proof to the Office of State Budget and Management (OSBM) that the agency has exhausted or is projected to exhaust funds appropriated for statutory or scheduled salary and benefit expenses.

The OSBM must certify the need for any allocation before disbursing funds from the reserve. The OSBM shall report to Fiscal Research Division on or before April 1 of each year on any disbursements made from the reserve and regarding projected recurring appropriations necessary to fully fund positions eligible for funding in the next fiscal year. Funds from the reserve may be allocated and reallocated only as expressly provided by this section. (2017-57, s. 35.17; 2018-5, s. 35.17; 2019-210, s. 4.1; 2019-211, s. 5.1.)

Enactment of the Budget.

§ 143C-5-1. Rules for the introduction of the Governor's appropriations bills.

The Current Operations Appropriations Act recommended by the Governor shall be introduced by the chairs of the committee on appropriations in each house of the General Assembly. This section shall be considered and treated as a rule of procedure in the Senate and House of Representatives unless provided otherwise by a rule of either branch of the General Assembly. (2006-203, s. 3; 2017-57, s. 6.6(d).)

§ 143C-5-2. Order of appropriations bills.

(a) Each house of the General Assembly shall first pass its version of the Current Operations Appropriations Act on third reading and order it sent to the other chamber before placing any other appropriations bill on the calendar for second reading. - (4) In even-numbered years, an appropriations bill that contains a statement that the General Assembly does not intend to enact a Current Operations Appropriations Act that year.

(b) The provisions of subsection (a) of this section shall apply to each fiscal year of the biennium. (2006-203, s. 3; 2012-12, s. 2(w); 2014-100, s. 6.8.)

§ 143C-5-3. Availability statement required.

The Current Operations Appropriations Act enacted by the General Assembly shall state the General Fund, Highway Fund, and Highway Trust Fund availability used as basis for appropriations from those funds. (2006-203, s. 3.)

§ 143C-5-4. Enactment deadline; procedures to be followed when the Current Operations Appropriations Act does not become law prior to the end of certain fiscal years.

(a) Enactment Deadline. – The General Assembly shall enact the Current Operations Appropriations Act by June 15 of odd-numbered years and by June 30 of even-numbered years in which a Current Operations Appropriations Act is enacted.

(b) Procedure for Budget Continuation. – If a fiscal year begins for which no Current Operations Appropriations Act providing for current operations of State government during that

fiscal year has become law, then the following procedures shall be followed and the following limitations shall apply:

- (1) Authority. – Unless otherwise provided by law, the Director of the Budget may continue to allocate funds from all funds for expenditure by State departments, institutions, and agencies at a level not to exceed the level of recurring expenditures from those funds for the prior fiscal year. If the Director of the Budget finds that projected revenues for the fiscal year will not support expenditures at the level of recurring expenditures for the prior fiscal year, the Director of the Budget shall allot funds at a lower level. In making these allocations, the Director of the Budget shall ensure the prompt payment of the principal and interest on bonds and notes of the State according to their terms. Except as otherwise provided by this section, the limitations and directions on the expenditure of funds for the prior fiscal biennium shall remain in effect.
- (2) Appropriation of funds necessary to implement. – There is appropriated from the appropriate State funds, cash balances, federal receipts, and departmental receipts sums sufficient to implement the authority described in this subsection for the applicable fiscal year.
- (3) Relation to Current Operations Appropriations Act. – The appropriations and the authorizations to allocate and spend funds which are set out in this subsection shall remain in effect until the Current Operations Appropriations Act for the applicable fiscal year becomes law, at which time that act shall become effective and shall govern appropriations and expenditures. When the Current Operations Appropriations Act for that fiscal year becomes law, the Director of the Budget shall adjust allotments to give effect to that act from July 1 of the fiscal year.
- (4) Vacant positions. – If both houses of the General Assembly have passed their respective versions of the Current Operations Appropriations Act on the third reading and ordered them sent to the other chamber, then vacant positions subject to proposed budget reductions in either or both versions of the bill shall not be filled.
- (5) State employee salaries. – The salary schedules and specific salaries established for the prior fiscal year and in effect on June 30 of the prior fiscal year for offices and positions shall remain in effect until the Current Operations Appropriations Act for the current fiscal year becomes law. State employees subject to G.S. 7A-102(c), 7A-171.1, 20-187.3, or any other statutory salary schedule, shall not move up on salary schedules or receive automatic increases, including automatic step increases, until authorized by the General Assembly. State employees, including those exempt from the classification and compensation rules established by the State Human Resources Commission, shall not receive any automatic step increases, annual, performance, merit, bonuses, or other increments until authorized by the General Assembly.
- (6) School Employee Salaries. – Public school employees paid on the teacher salary schedule, the school-based administrator salary schedule, or any other salary schedule established by State law shall not move up on salary schedules or receive automatic step increases until authorized by the General Assembly.

- (7) State's employer contribution rate. – The State's employer contribution rates budgeted for retirement and related benefits for the current fiscal year shall remain the same as they are on June 30 of the prior fiscal year. These rates are effective until the Current Operations Appropriations Act for the current fiscal year becomes law and are subject to revision in that act. If that act modifies those rates, the Director of the Budget shall further modify the rates set in that act for the remainder of the fiscal year so as to compensate for the different amount contributed between July 1 and the date the Current Operations Appropriations Act becomes law so that the effective rates for the entire year reflect the rates set in the Current Operations Appropriations Act.
- (8) Statutory transfers to reserves. – Notwithstanding G.S. 143C-4-2 and G.S. 143C-4-3.1, funds shall not be reserved to the Savings Reserve Account or the State Capital and Infrastructure Fund and the State Controller shall not transfer funds from the unreserved fund balance to those accounts on June 30 of the prior fiscal year.
- (9) Federal block grant funds and other grant funds. – Notwithstanding G.S. 143C-6-4, State agencies may, with approval of the Director of the Budget, spend funds received from grants awarded during the current fiscal year, including federal block grants, that are for less than two million five hundred thousand dollars (\$2,500,000), do not require State matching funds, and will not be used for a capital project. State agencies shall report to the Joint Legislative Commission on Governmental Operations within 30 days of receipt of such funds. State agencies may spend all other funds from grants awarded during the current fiscal year, including federal block grants, only with approval of the Director of the Budget and after consultation with the Joint Legislative Commission on Governmental Operations, except that consultation with the Joint Legislative Commission on Governmental Operations shall not be required prior to an expenditure to respond to an emergency, as that term is defined in G.S. 166A-19.3(6). The Office of State Budget and Management shall work with the recipient State agencies to budget grant awards according to the annual program needs and within the parameters of the respective granting entities. Depending on the nature of the award, additional State personnel may be employed on a time-limited basis. Funds received from such grants are hereby appropriated and shall be incorporated into the authorized budget of the recipient State agency. Notwithstanding the provisions of this subdivision, no State agency may accept a grant if acceptance of the grant would obligate the State to make future expenditures relating to the program receiving the grant or would otherwise result in a financial obligation as a consequence of accepting the grant funds. Nothing in this subdivision shall be construed to prohibit or limit expenditures that are authorized under subdivision (1) of this subsection. (2006-203, s. 3; 2016-94, s. 6.3(a); 2016-123, s. 2.2; 2017-5, s. 5; 2017-57, s. 36.12(h).)

§ 143C-5-5. Committee report used to construe intent of budget acts.

A committee report incorporated by reference in the Current Operations Appropriations Act and distributed on the floor of the House of Representatives and of the Senate as part of the

explanation of the act is to be construed with the appropriate act in interpreting its intent. If a report conflicts with the act, the act prevails. The Director of the Fiscal Research Division of the Legislative Services Commission shall send a copy of the reports to the Director. (2006-203, s. 3; 2017-57, s. 6.6(e).)

Part 1. Certification and Administration of the Budget.

§ 143C-6-1. Budget enacted by the General Assembly; certified budgets of State agencies.

(a) Governor to Administer the Budget as Enacted by the General Assembly. – In accordance with Section 5(3) of Article III of the North Carolina Constitution, the Governor shall administer the budget as enacted by the General Assembly. All appropriations of State funds now or hereafter made to the State agencies and non-State entities authorize expenditures only for the (i) purposes or programs and (ii) objects or line items enumerated in the Recommended State Budget and the Budget Support Document recommended to the General Assembly by the Governor, as amended and enacted by the General Assembly in the Current Operations Appropriations Act or any other act affecting the State budget. The Governor shall ensure that appropriations are expended in strict accordance with the budget enacted by the General Assembly.

(b) Departmental Receipts. – Departmental receipts collected to support a program or purpose shall be credited to the fund from which appropriations have been made to support that program or purpose. A State agency shall expend departmental receipts first, including receipts in excess of the amount of receipts budgeted in the certified budget for the program or purpose, and shall expend other funds appropriated for the purpose or program only to the extent that receipts are insufficient to meet the costs anticipated in the certified budget.

Except as authorized in G.S. 143C-6-4, excess departmental receipts shall not be used to increase expenditures for a purpose or program.

(c) Certification of the Budget. – The Director of the Budget shall certify to each State agency the amount appropriated to it for each program and each object from all funds included in the budget as defined in G.S. 143C-3-5(d). The certified budget for each State agency shall reflect the total of all appropriations enacted for each State agency by the General Assembly in the Current Operations Appropriations Act and any other act affecting the State budget. The certified budget for each State agency shall follow the format of the Budget Support Document as modified to reflect changes enacted by the General Assembly. (2006-203, s. 3; 2013-360, s. 6.12(m); 2017-57, s. 6.6(f).)

§ 143C-6-2. Methods to avoid deficit.

(a) Appropriations. – Each appropriation is maximum and conditional. The expenditures authorized by an appropriation from a fund shall be made only if necessary and only if the aggregate revenues to the fund during each fiscal year of the biennium, when added to any unreserved fund balance from the previous fiscal year, are sufficient to support the expenditures.

(b) Revenue Collections. – The Director, with the assistance of the Secretary of Revenue and other officials collecting or receiving appropriated State revenue, shall continuously survey the revenue collections. If the Director finds that revenues to any fund, when added to the beginning unreserved fund balance in that fund, will be insufficient to support appropriations from

that fund, the Director shall immediately notify the General Assembly that a deficit is anticipated. The Director shall consult with the Chief Justice to identify expenditure reductions and other lawful measures the Chief Justice and Judicial Branch can implement to reduce expenditures. The Director shall report in a timely manner to the General Assembly a plan containing the expenditure reductions and other lawful measures as the Director is implementing in order to avert the deficit.

(c) Local Governments Funds. – In exercising the powers contained in Section 5(3) of Article III of the North Carolina Constitution, the Governor shall not withhold from distribution funds that have been collected by the State on behalf of local governments or funds that the General Assembly has appropriated to local governments unless the Governor has exhausted all other sources of revenue of the State including any appropriated surplus remaining in the treasury at the beginning of the fiscal period.

In accordance with Section 19 of Article I of the North Carolina Constitution and the Due Process Clause of the United States Constitution, the State is prohibited from taking local tax revenue. This subsection does not authorize the Governor to withhold revenues from taxes levied by units of local governments and collected by the State. (2006-203, s. 3; 2007-393, s. 6.)

§ 143C-6-3. Allotments.

To receive the operating funds appropriated to it, a State agency shall submit to the Director, at intervals and in a format prescribed by the Director, a request for an allotment of the amount estimated to be required for the agency's operating costs during the ensuing fiscal period. The Director shall approve or modify the allotment requests, and the State Controller shall implement the allotments as approved or modified by the Director. (2006-203, s. 3.)

§ 143C-6-4. Budget Adjustments Authorized.

(a) Findings. – The General Assembly recognizes that even the most thorough budget deliberations may be affected by unforeseeable events; therefore, under the limited circumstances set forth in this section, the Director is authorized to adjust the enacted budget by making transfers among lines of expenditure, purposes, or programs or by increasing expenditures funded by departmental receipts.

(b) Budget Adjustments. – Notwithstanding the provisions of G.S. 143C-6-1, a State agency may, with approval of the Director of the Budget, spend more than was appropriated in the certified budget by adjusting the authorized budget for all of the following:

- (1) Line items within programs. – An object or line item within a purpose or program so long as the total amount expended for the purpose or program is no more than was authorized in the certified budget for the purpose or program.
- (2) Responses to extraordinary events. – A purpose or program if the overexpenditure of the purpose or program is:
 - a. Required by a court or Industrial Commission order;
 - b. Authorized under G.S. 166A-19.40(a)(1) and (c) of the North Carolina Emergency Management Act; or
 - c. Required to call out the North Carolina National Guard.
- (3) Responses to unforeseen circumstances. – A purpose or program not subject to the provisions of subdivision (b)(2) of this subsection, if each of the following conditions is satisfied:

- a. The overexpenditure is required to continue the purpose or programs due to complications or changes in circumstances that could not have been foreseen when the budget for the fiscal period was enacted.
- b. The scope of the purpose or program is not increased.
- c. The overexpenditure is authorized on a one-time nonrecurring basis for one year only, unless the overexpenditure is the result of (i) salary adjustments authorized by law or (ii) the establishment of time-limited positions funded with agency receipts.

(b1) If the overexpenditure would cause a department's total requirements for a fund to exceed the department's certified budget for a fiscal year for that fund by more than three percent (3%), the Director shall consult with the Joint Legislative Commission on Governmental Operations prior to authorizing the overexpenditure.

(b2) Subsection (b) of this section shall not be construed to authorize budget adjustments that cause General Fund expenditures, excluding expenditures from General Fund receipts, to exceed General Fund appropriations for a department.

(c) Overexpenditures Reported. – The Director shall report quarterly, beginning October 31, to the Joint Legislative Commission on Governmental Operations on overexpenditures approved by the Director under subdivisions (2) and (3) of subsection (b) of this section.

(d) Overexpenditures in Senate Budget. – The President Pro Tempore of the Senate may approve expenditures for more than was authorized in the enacted budget for objects or line items in the budget of the Senate.

(e) Overexpenditures in House of Representatives Budget. – The Speaker of the House of Representatives may approve expenditures for more than was authorized in the enacted budget objects or line items in the budget of the House of Representatives.

(f) Transfers Between Line Items or Programs in General Assembly Budget Other Than Senate and House of Representatives. – Expenditures exceeding amounts authorized for programs, objects, or line items in the budget of the General Assembly other than those of the Senate and House of Representatives shall be approved jointly by the President Pro Tempore of the Senate and the Speaker of the House of Representatives.

(g) Transfers in The University of North Carolina Budget. – Transfers or changes within the budget of The University of North Carolina may be made as provided in Article 1 of Chapter 116 of the General Statutes.

(h) Transfers Within the Office of the Governor. – Transfers or changes as between objects or line items in the budget of the Office of the Governor may be made by the Governor. (2006-203, s. 3; 2007-117, s. 4; 2009-281, s. 1; 2011-183, s. 127(c); 2012-12, s. 2(x); 2013-360, s. 6.12(n); 2017-102, s. 26.)

§ 143C-6-5. No expenditures for purposes for which the General Assembly has considered but not enacted an appropriation; no fee increases that the General Assembly has rejected.

(a) Notwithstanding any other provision of law, no funds from any source, except for gifts, grants, or funds allocated from the State Capital and Infrastructure Fund in accordance with G.S. 143C-4-3.1, funds allocated from the Contingency and Emergency Fund in accordance with G.S. 143C-4-4, and funds exempted from Chapter 143C in accordance with G.S. 143C-1-3(c) may be expended for any new or expanded purpose, position, or other expenditure for which the General Assembly has considered but not enacted an appropriation of funds for the current fiscal

period. For the purpose of this subsection, the General Assembly has considered a purpose, position, or other expenditure when that purpose is included in a bill which fails a reading, or if the purpose is included in the version of a bill that passes one house, but the bill is enacted without the purpose.

(b) Notwithstanding any other provision of law, no fee shall be increased if the General Assembly has rejected an increase of that fee for the current fiscal period. For the purpose of this subsection, the General Assembly has rejected a fee increase when that fee increase is included in a bill which fails a reading, or if the fee increase is included in the version of a bill that passes one house, but the bill is enacted without the fee increase. (2006-66, s. 6.4; 2006-203, s. 3; 2017-57, s. 36.12(i).)

§ 143C-6-5.5. Limitation on use of State funds for abortions.

No State funds may be used for the performance of abortions or to support the administration of any governmental health plan or government-offered insurance policy offering abortion, except that this prohibition shall not apply where (i) the life of the mother would be endangered if the unborn child were carried to term or (ii) the pregnancy is the result of a rape or incest. Nothing in this section shall be construed to limit medical care provided after a spontaneous miscarriage. (2011-145, s. 29.23(a).)

§ 143C-6-6. Positions included in the State Payroll.

(a) Before a State agency establishes a new position or changes the funding of an existing position, the agency shall submit the proposed action to the Director for approval. The Director shall review the proposed action to ensure that funds for the action are included in the amount appropriated to the agency. If the Director approves the action, the Director shall notify the agency and the Controller of the approval. The Controller shall not honor a voucher in payment of a payroll that includes a new position or a change in an existing position that has not been approved by the Director.

(b) Payments on behalf of employees for hospital-medical insurance, longevity payments, salary increments, and legislative salary increases, required employer salary-related contributions for retirement benefits, death benefits, the Disability Income Plan and social security for employees shall be paid from the General Fund or the Highway Fund, only to the extent of the proportionate part paid from the General Fund or Highway Fund, in support of the salary of the employee, and the remainder of the employer's contribution requirements shall be paid from the same source that supplies the remainder of the employee's salary.

(c) Subsection (a) of this section does not apply to The University of North Carolina. (2006-203, s. 3; 2007-484, s. 34.)

§ 143C-6-7. Compliance with Chapter and appropriations acts by State agencies.

(a) Compliance With Chapter and Appropriations Acts. – Except as otherwise provided by law, all expenditures of State funds by a State agency shall be made in compliance with the State budget as enacted by the General Assembly and certified by the Director. If the Director finds that a State agency has spent or encumbered State funds for an unauthorized purpose, the Director shall take appropriate administrative action to ensure that no further irregularities occur and shall report to the Attorney General any facts that pertain to an apparent violation of a penal statute or an apparent instance of malfeasance, misfeasance, or nonfeasance by a person.

(b) Repayment of Funds Spent for an Unauthorized Purpose. – In addition to the provisions of subsection (a) of this section, if the Director finds that a State agency violated this section, the Director shall withhold any future allocations for the unauthorized purpose and shall also withhold future allocations to the Department in an amount equal to the funds unlawfully spent. (2006-203, s. 3.)

§ 143C-6-8. State agencies may incur financial obligations only if authorized by the Director of the Budget and subject to the availability of appropriated funds.

(a) Limitation. – Unless otherwise authorized by the Director as provided by law, purchase orders, contracts, salary commitments, and any other financial obligations by State agencies shall be subject to the availability of appropriated funds or available funds that are not State funds as defined in this Chapter. Any employment contract or salary commitment that is paid in whole or in part with State funds shall also be subject to this limitation.

(b) Notice. – Any written purchase order, contract, salary commitment, or other financial obligation subject to this section shall include a clause that sets forth the limitation imposed by subsection (a) of this section. Where this section applies but there is no written document to which the limitation may be added, the entity that administers the State funds at issue shall notify the person or entity of the limitation. (2006-203, s. 3; 2012-142, s. 6.13(a).)

§ 143C-6-9. Use of lapsed salary savings.

(a) Lapsed salary savings may be expended only for nonrecurring purposes or line items.

(b) Lapsed salary savings shall not be used to pay for litigation services provided by private counsel. As used in this subsection, litigation services and private counsel are as defined in G.S. 147-17(c1) and G.S. 114-2.3(d). (2006-203, s. 3; 2017-57, s. 6.7.)

§ 143C-6-10. Flexible compensation plan.

Notwithstanding any other provision of law, the Director may establish a program of dependent care assistance and a flexible compensation plan for eligible officers and employees of State agencies as provided in G.S. 126-95. With the approval of the Director, savings in the employer's share of contributions under the Federal Insurance Contributions Act on account of the reduction in salary may also be used as provided by G.S. 126-95. (2007-117, s. 3(c).)

Part 2.

Highway Appropriations.

§ 143C-6-11. Highway appropriation.

(a) General Provisions. – Appropriations made for transportation projects are subject to the provisions in this section. If the provisions in this section conflict with the budget acts, the budget acts prevail.

(b) Cash Flow Management of Transportation Projects. – Transportation Project funds shall be budgeted, expended, and accounted for on a "cash flow" basis. Pursuant to this end, transportation project contracts shall be planned and limited so payments due at any time will not exceed the cash available to pay them.

(c) Appropriations Are for Payments and Contract Commitments to Be Made in the Appropriation Fiscal Year. – The appropriations for transportation projects are for maximum payments estimated to be made during the appropriation fiscal year and for maximum contracting authority for future years. Transportation project contracts shall be scheduled so that the total

contract payments and other expenditures charged to projects in the fiscal year for each transportation project appropriation item will not exceed the current appropriations provided by the General Assembly and unspent prior appropriations made by the General Assembly for the particular appropriation item.

(d) **Payments Subject to Availability of Funds.** – The annual appropriations for transportation projects shall be expended only to the extent that sufficient funds are available in the Highway Fund.

(e) **Retainage Fully Funded.** – The Department of Transportation shall fully fund retainage from transportation project contracts in the year in which the work is performed.

(f) **Seven and One-Half Percent (7.5%) Cash Balance Required.** – The Department of Transportation shall maintain an available cash balance at the end of each month equal to at least seven and one-half percent (7.5%) of the total appropriations for the current fiscal year from the Highway Fund and the Highway Trust Fund. In projecting cash balances in future years, the Department shall use the estimated cash flow as specified in the Current Operations Appropriation Act. In the event this cash position is not maintained, no further transportation project contract commitments may be entered into until the cash balance has been regained. Any federal funds on hand shall not be considered as cash for the purposes of this subsection.

(g) **Anticipation of Revenues.** – In awarding State transportation project contracts requiring payments beyond a biennium, the Director may anticipate revenues as authorized and certified by the General Assembly to continue contract payments for up to seventy-five percent (75%) of the revenues which are estimated for the first fiscal year of the succeeding biennium and which are not required for other budget items. Up to fifty percent (50%) of the revenues not required for other budget items may be anticipated for the second and subsequent fiscal years' contract payments. Up to forty percent (40%) of the revenues not required for other budget items may be anticipated for the first year of the second succeeding biennium and up to twenty percent (20%) of the revenues not required for other budget items may be anticipated for the second year of the second succeeding biennium.

(h) **Amounts Encumbered.** – Transportation project appropriations may be encumbered in the amount of allotments made to the Department of Transportation by the Director for the estimated payments for transportation project contract work to be performed in the appropriation fiscal year. The allotments shall be multiyear allotments and shall be based on estimated revenues and shall be subject to the maximum contract authority contained in subsection (c) above. Payment for transportation project work performed pursuant to contract in any fiscal year other than the current fiscal year is subject to appropriations by the General Assembly. Transportation project contracts shall contain a schedule of estimated completion progress, and any acceleration of this progress shall be subject to the approval of the Department of Transportation provided funds are available. The State reserves the right to terminate or suspend any transportation project contract, and any transportation project contract shall be so terminated or suspended if funds will not be available for payment of the work to be performed during that fiscal year pursuant to the contract. In the event of termination of any contract, the contractor shall be given a written notice of termination at least 60 days before completion of scheduled work for which funds are available. In the event of termination, the contractor shall be paid for the work already performed in accordance with the contract specifications.

(i) **Provision Incorporated in Contracts.** – The provisions of subsection (h) of this section shall be incorporated verbatim in all transportation project contracts.

(j) Existing Contracts Are Not Affected. – The provisions of this section shall not apply to transportation project contracts awarded by the Department of Transportation prior to July 15, 1980.

(k) The Department of Transportation shall do all of the following:

- (1) Utilize cash flow financing to the extent possible to fund transportation projects with the goal of reducing the combined average daily cash balance of the Highway Fund and the Highway Trust Fund to an amount equal to between fifteen and twenty percent (15-20%) of the total appropriations for the current fiscal year from those funds. In projecting cash balances in future years, the Department shall use the estimated cash flow as specified in the Current Operations Appropriation Act. Any federal funds on hand shall not be considered as cash for the purposes of this subsection. The target amount shall include an amount necessary to make all municipal-aid funding requirements of the Department.
- (2) Establish necessary management controls to facilitate use of cash flow financing, such as establishment of a financial planning committee, development of a monthly financing report, establishment of appropriate fund cash level targets, review of revenue forecasting procedures, and reduction of accrued unbilled costs.
- (3) Report annually, on October 1 of each year, to the Joint Legislative Transportation Oversight Committee on its cash management policies and results.

(l) It is the intent of the General Assembly to (i) prevent the inclusion of duplicative fund codes in the Highway Fund certified budget and (ii) correctly align authorized positions and associated operating costs with the appropriate purposes and definitions as defined in G.S. 143C-1-1. To that end, the Office of State Budget and Management, in consultation with the Department of Transportation, the Office of the State Controller, and the Fiscal Research Division of the General Assembly, shall include, as an appendix to the Highway Fund certified budget, object detail using the North Carolina Accounting System Uniform Chart of Accounts prescribed by the Office of the State Controller to provide a more detailed accounting of the proposed budgets and receipts and actual expenditures and revenue collections. This requirement includes applying object detail at the four-digit level for all accounts to full-time and part-time positions, to operating expenditures and receipts, and to intrafund transfers. Additionally, work order positions shall be budgeted within existing fund codes. (2006-203, s. 3; 2014-100, s. 34.23(a); 2018-5, s. 34.8(b).)

§ 143C-6-12. Quarterly report on State agency reorganizations and movements of positions.

The Office of State Budget and Management shall report quarterly to the Joint Legislative Commission on Governmental Operations and the appropriate Joint Legislative Oversight Committee on reorganizations of State agencies and movements of State agency positions. Each report submitted pursuant to this section shall include all of the following information for the previous quarter:

- (1) A list of all reorganizations within State agencies or between State agencies.
- (2) A list of all positions moved within a State agency or between State agencies.
- (3) A statement of the purpose of each reorganization and position movement undertaken and of the legal authority under which each reorganization and position movement was made. (2014-100, s. 6.10.)

Part 3. Non-State Entities Receiving State Funds.

§ 143C-6-21. **Payments to nonprofits.**

Except as otherwise provided by law, an annual appropriation of one hundred thousand dollars (\$100,000) or less to or for the use of a nonprofit corporation may be made in a single annual payment, in the discretion of the Director of the Budget. An annual appropriation of more than one hundred thousand dollars (\$100,000) to or for the use of a nonprofit corporation shall be made in quarterly or monthly payments, in the discretion of the Director of the Budget. (2006-203, s. 3; 2013-360, s. 6.12(o).)

§ 143C-6-22. **Use of State funds by non-State entities.**

(a) Disbursement and Use of State Funds. – Every non-State entity that receives, uses, or expends any State funds shall use or expend the funds only for the purposes for which they were appropriated by the General Assembly. State funds include federal funds that flow through the State Treasury.

(b) Compliance by Non-State Entities. – If the Director of the Budget finds that a non-State entity has spent or encumbered State funds for an unauthorized purpose, or fails to submit or falsifies the information required by G.S. 143C-6-23 or any other provision of law, the Director shall take appropriate administrative action to ensure that no further irregularities or violations of law occur and shall report to the Attorney General any facts that pertain to an apparent violation of a criminal law or an apparent instance of malfeasance, misfeasance, or nonfeasance in connection with the use of State funds. Appropriate administrative action may include suspending or withholding the disbursement of State funds and recovering State funds previously disbursed.

(c) Civil Actions. – Civil actions to recover State funds or to obtain other mandatory orders in the name of the State on relation of the Attorney General, or in the name of the Office of State Budget and Management, shall be filed in the General Court of Justice in Wake County. (2006-203, s. 3.)

§ 143C-6-23. **State grant funds: administration; oversight and reporting requirements.**

(a) Definitions. – The following definitions apply in this section:

- (1) Grant or grant funds. – State funds disbursed as a grant by a State agency; however, the terms do not include any payment made by the Medicaid program, the State Health Plan for Teachers and State Employees, or other similar medical programs.
- (2) Grantee. – A non-State entity that receives State funds as a grant from a State agency but does not include any non-State entity subject to the audit and other reporting requirements of the Local Government Commission.
- (3) Encumbrance. – A financial obligation created by a purchase order, contract, salary commitment, unearned or prepaid collections for services provided, or other legally binding agreement. A financial obligation is not an encumbrance for purposes of this section unless it (i) is in writing and has been signed by a person or entity who has authority to legally bind the grantee or subgrantee to spend the funds or (ii) was created by the provision of goods or services to the grantee or subgrantee by a third party under circumstances that create a legally binding obligation to pay for the goods or services.
- (4) Subgrantee. – A non-State entity that receives State funds as a grant from a grantee or from another subgrantee but does not include any non-State entity subject to the audit and other reporting requirements of the Local Government Commission.

(b) Conflict of Interest Policy. – Every grantee shall file with the State agency disbursing funds to the grantee a copy of that grantee's policy addressing conflicts of interest that may arise involving the grantee's management employees and the members of its board of directors or other governing body. The policy shall address situations in which any of these individuals may directly or indirectly benefit, except as the grantee's employees or members of its board or other governing body, from the grantee's disbursing of State funds, and shall include actions to be taken by the grantee or the individual, or both, to avoid conflicts of interest and the appearance of impropriety. The policy shall be filed before the disbursing State agency may disburse the grant funds.

(c) No Overdue Tax Debts. – Every grantee shall file with the State agency or department disbursing funds to the grantee a written statement completed by that grantee's board of directors or other governing body stating that the grantee does not have any overdue tax debts, as defined by G.S. 105-243.1, at the federal, State, or local level. The written statement shall be made under oath and shall be filed before the disbursing State agency or department may disburse the grant funds. A person who makes a false statement in violation of this subsection is guilty of a criminal offense punishable as provided by G.S. 143C-10-1.

(d) Office of State Budget Rules Must Require Uniform Administration of State Grants. – The Office of State Budget and Management shall adopt rules to ensure the uniform administration of State grants by all grantor State agencies and grantees or subgrantees. The Office of State Budget and Management shall consult with the Office of the State Auditor and the Attorney General in establishing the rules required by this subsection. The rules shall establish policies and procedures for disbursements of State grants and for State agency oversight, monitoring, and evaluation of grantees and subgrantees. The policies and procedures shall:

- (1) Ensure that the purpose and reporting requirements of each grant are specified to the grantee.
- (2) Ensure that grantees specify the purpose and reporting requirements for grants made to subgrantees.

- (3) Ensure that State funds are spent in accordance with the purposes for which they were granted.
 - (4) Hold the grantees and subgrantees accountable for the legal and appropriate expenditure of grant funds.
 - (5) Provide for adequate oversight and monitoring to prevent the misuse of grant funds. These policies shall require each grantee and subgrantee to ensure that, for accounting purposes, State funds and interest earned on those funds remain separate and apart from other funds in the possession or control of the grantee or subgrantee.
 - (6) Establish mandatory periodic reporting requirements for grantees and subgrantees, including methods of reporting, to provide financial and program performance information. The mandatory periodic reporting requirements shall require grantees and subgrantees to file with the State Auditor copies of reports and statements that are filed with State agencies pursuant to this subsection. Compliance with the mandatory periodic reporting requirements of this subdivision shall not require grantees and subgrantees to file with the State Auditor the information described in subsections (b) and (c) of this section.
 - (7) Require grantees and subgrantees to maintain reports, records, and other information to properly account for the expenditure of all grant funds and to make such reports, records, and other information available to the grantor State agency for oversight, monitoring, and evaluation purposes.
 - (8) Require grantees and subgrantees to ensure that work papers in the possession of their auditors are available to the State Auditor for the purposes set out in subsection (i) of this section.
 - (9) Require grantees to be responsible for managing and monitoring each project, program, or activity supported by grant funds and each subgrantee project, program, or activity supported by grant funds.
 - (10) Provide procedures for the suspension of further disbursements or use of grant funds for noncompliance with these rules or other inappropriate use of the funds.
 - (11) Provide procedures for use in appropriate circumstances for reinstatement of disbursements that have been suspended for noncompliance with these rules or other inappropriate use of grant funds.
 - (12) Provide procedures for the recovery and return to the grantor State agency of unexpended grant funds from a grantee or subgrantee (i) in accordance with subsection (f1) of this section or (ii) in the event that the grantee or subgrantee is unable to fulfill the purposes of the grant for a reason not set forth in that subsection.
- (d1) Required Grant Terms. – The terms of each grant shall include all of the following, which shall be deemed a part of the grant:
- (1) The limitation contained in G.S. 143C-6-8 concerning the availability of appropriated funds.
 - (2) The relevant provisions of any legislation authorizing or governing the administration of the grant.
 - (3) The terms of this section.

(e) Rules Are Subject to the Administrative Procedure Act. – Notwithstanding the provisions of G.S. 150B-2(8a)b. rules adopted pursuant to subsection (d) of this section are subject to the provisions of Chapter 150B of the General Statutes.

(f) Suspension and Recovery of Funds to Grant Recipients for Noncompliance. – The Office of State Budget and Management, after consultation with the administering State agency, shall have the power to suspend disbursement of grant funds to grantees or subgrantees, to prevent further use of grant funds already disbursed, and to recover grant funds already disbursed for noncompliance with rules adopted pursuant to subsection (d) of this section. If the grant funds are a pass-through of funds granted by an agency of the United States, then the Office of State Budget and Management must consult with the granting agency of the United States and the State agency that is the recipient of the pass-through funds prior to taking the actions authorized by this subsection.

(f1) Return of Grant Funds. – Except as otherwise required by federal law, a grantee or subgrantee shall return to the State all affected grant funds and interest earned on those funds if any of the following occurs:

- (1) The funds are in the possession or control of a grantee and are not expended, made subject to an encumbrance, or disbursed to a subgrantee by August 31 immediately following the fiscal year in which the funds are appropriated by the General Assembly, or a different period set forth in the terms of the applicable appropriation or federal grant.
- (2) The funds remain unexpended at the time that the grantee or subgrantee dissolves, ceases operations, or otherwise indicates that it does not intend to spend the funds.
- (3) The Office of State Budget and Management seeks to recover the funds pursuant to subsection (f) of this section.

(f2) Use of Returned Grant Funds. – Encumbered funds returned to the State pursuant to subsection (f1) of this section by a grantee or subgrantee shall upon appropriation by the General Assembly be spent in accordance with the terms of the encumbrance. All other funds returned to the State by a grantee or subgrantee pursuant to subsection (f1) of this section shall be credited to the fund from which they were appropriated and shall remain unexpended and unencumbered until appropriated by the General Assembly. Nothing in this section shall be construed to authorize an expenditure pursuant to an unlawful encumbrance or in a manner that would violate the terms of the appropriation of the grant funds at issue.

(g) Audit Oversight. – The State Auditor has audit oversight, with respect to grant funds received by the grantee or subgrantee, pursuant to Article 5A of Chapter 147 of the General Statutes, of every grantee or subgrantee that receives, uses, or expends grant funds. A grantee or subgrantee shall, upon request, furnish to the State Auditor for audit all books, records, and other information necessary for the State Auditor to account fully for the use and expenditure of grant funds received by the grantee or subgrantee. The grantee or subgrantee shall furnish any additional financial or budgetary information requested by the State Auditor, including audit work papers in the possession of any auditor of a grantee or subgrantee directly related to the use and expenditure of grant funds. The grantee or subgrantee shall post conspicuously in its office the State Auditor's hotline telephone number, as described in G.S. 147-64.6B(a).

The Director may authorize funds in the Account to be used for any of the following:

If the Director does not credit the appropriation to the Project Reserve Account, the appropriation shall revert to the principal fund from which it was appropriated. The Director may, for good cause, allow a State agency to take up to an additional 12 months to take the actions required by this subsection.

(b) Lapse of Project Authorization. – Authorizations for capital improvement projects shall lapse if any of the following occur: (i) the appropriation for a capital improvement project reverts, (ii) the construction of a project does not begin during the first two fiscal years in which funds are appropriated, or (iii) the Director redirects funds appropriated for a capital improvement project in accordance with G.S. 143C-6-2. (c) Funds Remaining After Project Completion. – The State Controller shall transfer any balance of State funds appropriated for a capital project that remains unspent and unencumbered two years after completion of the project in accordance with this section. If applicable law requires a particular disposition of the funds, then the transfer shall be made in accordance with that requirement. Otherwise, the transfer shall be made in accordance with the following requirements:

- (1) If the funds were initially allocated from the Reserve for Repairs and Renovations, then the funds shall be transferred to that Reserve.
